ITALY TO GAIN COVETED LAND

Reliable Reports Assert Nation
Has Received An Understand-
ing With The Allies.

WILL TIME DEATH BLOW

Concerted Military Action Is
Planned To Defeat Germany
And Austria.

ROME, April 29.—From persons in close touch with the war situation as it affects Italy there was obtained today information which indicates that the government has reached an understanding with Great Britain and France concerning the terms upon which Italy will enter the war if she eventually decides to do so. This information while unofficial is gathered from men who have made a close and careful study of the situation. The agreement is described as follows:

First, a provision for concerted military action. Italy will refrain from hostilities during the present stage of desultory trench warfare, which would enable Germany and Austria to concentrate a large part of their forces against her. She will time her blow contemporaneously with a general effort by all the opponents of the central empire now in the field.

Second, an understanding concerning the territory to be awarded Italy in the event of victory.

Third, a provision that after the war an alliance shall be formed between Italy and the present triple entente of Great Britain, France and Russia. It is intimated that at the outset Great Britain was not disposed to make terms with Italy, but that Italy finally declined to consider joining the allies without first having reached a definite agreement with them concerning the nature and time of her cooperation boundary and justifications after the war and permanent assistance from the allies. Italy is said to have received powerful assistance from French diplomacy in reaching the desired understanding on these points.

LONDON, April 29.—The fighting at the tip of the Gallipoli peninsula, across which the British have strung their forces and the efforts to dislodge the Germans from Stenestra, the only point on the west bank of the Yser, which the invaders have (Continued on Last Page.)

REALTY THROBS ARE COUNTING

Lot Sales and Buying of Bungalows
Start Off Well This Season—Par-
tial List of Transfers.

Two handsome lots at Fifteenth and Western avenue have been purchased by H. E. Robinson of the State Exchange bank and he has plans drawn for a residence which he will build at once. There will be other buildings in that section of the city during the coming season. W. H. Gadd of the Western Newspaper Union has bought lots in East Park place and will build.

The sale of bungalows starts off well this season, according to the real estate men. G. A. Malone of the Alexander Drug company has bought through Workman & Co. one of the new ones recently built at Twenty-fifth and Shattell. J. F. Hilliard of the Oklahoma National Life company has bought through the same company one of the bungalows at Twenty-fourth and Shattell.

Ben D. Thornton has bought a two-story house on West Fourteenth street and J. L. Brittain has become the owner of a new bungalow at Thirty-second and Shattell. The sale of residence property is better now, the real estate men say, than it has been at any time during the past three years.

PUBLIC WORKS BOARD PRAISED BY F. M. HULL

Much credit is given to the department of public works of Oklahoma City by F. M. Hull, who is supervising the preparations for the election of the new federal building. The final sorting and inspection of the samples of the different strata found in the four test pits for a depth of 25 feet on the new federal building site was made today. The sinking of the pits was in charge of B. M. Hart, assistant city engineer. Mr. Hull declares that the work was done better and cheaper than any city work he has been associated with in his government service.

MEASURED HER MARRIED LIFE IN TERMS OF HOURS

In a petition for a divorce filed this morning Lenora C. Garnett alleges that a few hours after she was married to Bert Garnett, April 16, 1914, her husband deserted her and since that time has refused to provide for her. She seeks an absolute divorce and the restoration of her former name, Lenora C. Carter.

DRUG STORE QUILTS

Lyric Pharmacy, Following Issuance
of Injunction, Packs Its Property
and Hies Elsewhere.

An injunction restraining Sherman and Fred Billingsley and J. K. Perrine was issued from Judge Oldfield's court yesterday afternoon at 5 o'clock and as a result the drug store operated by these parties and known as the Lyric Pharmacy was abandoned this morning. Until 2 o'clock last night drays and wagons were backing up to the entrance of the place and hauling away counters, tables and other fixtures. Whether the things will be stored or moved into another location the county attorney's office does not know.

MONROE AWAIT EMBRY

Lindsay Merchant Voluntarily Gives
Himself Over to Police Pending Action
of County Attorney.

D. V. Monroe, the wealthy merchant of Lindsay who is charged with having killed Marguerite Ellis in this city, and who has been out on bond of \$100,000 on a warrant charging shooting and injuring, arrived in the city yesterday afternoon and at once went to the office of the county sheriff where he gave himself up. He was placed in jail and will probably remain there until some further action is taken in his case upon the arrival in the city of County Attorney John Embury.

CHANGING PEACE DAY

American School Peace League Asks
Advocates to Pledge May 15 as
Slogan for Only One Week.

While the schools of the United States have for ten years been observing May 15 as Peace day, the American School Peace League is requesting the governors of the states this year to proclaim May 15 as the day to be observed. The national day of observance is making special regulations for day. To be celebrated, not only in the schools, but in all institutions that are the guardians of civilization.

Special significance will be attached to the observance of Peace day this year, owing to the tremendous war raging in Europe. To make the exercises profitable and uniform throughout the country the Peace league has prepared material for the use of schools and has sent literature dealing with the general subject of international relations to most of the educational institutions.

THERE! IT'S SETTLED

Historical Society Has Volume
Printed in 1902 Which Depicts
Washington Felling Cherry Tree.

George Washington certainly did cut down the time-honored cherry tree, if an old history just received at the Oklahoma Historical society is correct. The volume was printed about 1902 and deals with the life of Washington and the history of the Revolutionary war. It is filled with old fashioned wood cuts, one of which shows the youthful George standing with an enormous hatchet in his hand, explaining to his father just how it happened.

The book was received from W. L. Dolphin of Sulphur, and with the exception of the binding is still in excellent condition.

TAXES IN A NUTSHELL

Totat's Cramping Oklahoma's Levy of
18 Million Some—Figures Compiled
Show Interesting Phases.

An interesting compilation of figures has been made on property valuation in Oklahoma, taxes assessed and the rate fixed, for the 1914 taxes. The total valuation of property subject to an ad valorem tax for 1914 was \$1,175,933,582, and of this amount the total taxes levied and extended on the tax rolls in every county reached the sum of \$18,435,063.32. The state tax amounted to \$1,530,481.20; county tax, \$5,123,406; municipal tax, \$4,795,589.30, and school tax, \$6,975,186.82. This represented an average levy of 15.67 mills.

The total valuation of railroad property in the state was \$197,945,748, and against this the taxes amounted to \$2,495,240. Of the state tax the railroads paid \$257,329; county tax, \$932,200; municipal tax, \$401,530, and school tax, \$804,181.

The pipe line property in the state was valued at \$96,720,630, and the total tax assessed against that property was \$929,915. Of this amount \$77,737 went for state taxes; \$251,097 for county tax; \$115,897 for municipal tax and \$183,184 for school tax.

The total valuation of property in the state subject to ad valorem tax was greater in 1913 than in 1914, valuations reduced in many respects by the state board of equalization in 1914.

BRYAN HAS NOTHING TO REPORT ON SUBMARINES

WASHINGTON, April 29.—President reports that part of submarine boats have been shipped from the United States into Canada are still under investigation Secretary Bryan stated today. He added that his department had "nothing to report as yet."

ROOSEVELT ENDS HIS TESTIMONY

Whitman in Letter Suggests
That New York Be Rid of
Party Control.

EVIDENCE FOR THE COLODEL

Barne's Name Not Mentioned
But Witness Says He Thought
Reverence Was To "Boss"

SYRACUSE, N. Y., April 29.—Colonel Roosevelt completed his testimony today at the trial of William Barnes, Jr.'s libel suit against him in a letter produced by counsel for the colonel during the testimony of Charles S. Whitman, then chief clerk of New York, told Charles H. Duell of New York, that the time in New York for all progressive Republicans and members of the 1912 campaign to "rid the state of the party control" which is responsible for corrupt conditions.

The letter was written in 1914 and the libel trial testimony stated that the "boss" and the "bosses" responsible for the corrupt conditions were not confined to any one party. Mr. Barnes' name was not mentioned in the letter but the colonel in reply is questioned as to whether the reference was to him.

Colonel Roosevelt was accused of libel shortly after this letter was introduced.

The defense today requested that several witnesses be called to go on the stand after the colonel was introduced.

Roosevelt Applauded.

When Colonel Roosevelt entered the courtroom today spectators applauded. He was smiling as he took the witness chair.

"How did you finally happen to be nominated for Vice-president in 1900?" asked his counsel.

An objection was sustained. "Did President McKinley send you a communication on that subject?"

"Yes."

"Did you accept after receiving the message?"

Another objection was sustained. Later he said:

"I accepted so as to gratify President McKinley."

"Do you remember hearing that any of the men named by Mr. Ives con- (Continued on Last Page.)

HEALTH PLEA IS MADE BY OWEN

Oklahoma Senator Tells Commercial
Congress that National Department
Is Needed to Safeguard People.

MUSKOGEE, Ok., April 29.—A plea for a national department of health whose head shall have a seat in the president's cabinet was made before the Southern Commercial congress today by Senator Robert J. Owen of Oklahoma. Senator Owen is the author of a bill now pending in congress which would establish such a department.

"The safeguarding of the health of our people is as important as any problem we are facing," Senator Owen said.

He then pointed out the loss of life, efficiency and property from preventable diseases asserting that considering the matter from a financial basis alone the country could save a vast sum by the creation of such a department.

The same argument was made by J. H. White, chief surgeon of the United States bureau of public health. Numbers of bankers and business men of the South were in attendance at the convention today to hear George W. Perkins of New York express his views as to the results of recent legislation upon the business interests of the country.

"The tariff and the Sherman anti-trust law are the greatest assets of our politicians and the greatest liability of our merchants," he declared. He spoke of "The New South and the New World" and discussed what he called another great reconstruction (Continued on Last Page.)

A BEASTLY JOB-UGH!

To wit, That of Spending all or Part of
\$4,500 Appropriated to Purchase an
Electric Chair.

Although the last legislature made an appropriation of \$4,500 to purchase an electric chair and equipment for the infliction of the death penalty, the board of affairs will probably not spend that amount. It has been discovered that a chair can be constructed by home talent for much less than that amount and this will be done. All that will be necessary to buy is the equipment. It is said that the chair used in Arkansas cost less than \$2,000 and the members of the board of affairs believe they can place a chair, complete, in the penitentiary for at least the amount spent by Arkansas.

HOLOCAUST OF WARMS

The big pile of hogwashes stored in an empty room on North Broadway have been removed to ashes. The room is empty now and the hogwashes that contained thousands of others were emptied of their contents. This was done today. This morning after the room was given out that the hogwashes were hatching and were unable to obstruct traffic on Broadway. One of the hogwashes was found to be full of hogwashes and a possible hogwashes.

War at a Glance

Turkish and British reports of the land operations in the Gallipoli peninsula are in sharp contrast. From the Turkish version it would appear that the Anglo-French land invasion has resulted in disaster for the allies. Further claims to victories are made in an official report from Constantinople. It is said the forces were landed near Kaba Teph were forced back along the whole coast and away from the sea and under the pressure of the Turkish forces, the British and French forces were driven back to the sea. British official reports give no hint of defeat. The latest information from London says the land forces have succeeded in establishing a line across the Gallipoli peninsula on the European side of the strait and are attacking steadily. An official dispatch from Athens states that the allies were victorious in a battle on the west side of the peninsula, inflicting serious losses on the Turks and capturing one half mile.

The battle of Gallipoli apparently has passed the high point of intensity and is becoming less severe. An official British statement speaks merely of the activity of artillery and aviation along the coast of the peninsula. Field Marshal Sir John French, the British commander, has announced that the German advance has been checked definitely.

In the Russian campaign new battles are developing in the north along the East Prussian border. Petrograd dispatches speak of various inclusive counters but make no mention of victory.

PENSION PLAN N IUP

Methodist Propose to Raise Fund of
Ten Millions for Retired Ministers,
Widows and Orphans.

CHICAGO, April 29.—Pensions for retired ministers would have a tendency to eliminate the commercializing of the pulpit through "money making on the sabbath" according to D. W. H. Warren of Indianapolis, secretary of the board of ministerial relations of the Disciples of Christ, who today addressed the national convention of conference ministers of the Methodist Episcopal church.

Plans are being considered by the convention to raise a \$10,000,000 fund to provide pensions for retired ministers, their widows and orphans.

FARMERS DEPLAIN LANDS IN TEXAS AFTER FLOODS

HOUSTON, Tex., April 29.—Another day and night without rainfall has strengthened hopes that the great flood now rushing gulfward in the Brazos river will pass without adding to the injury already done. Reports this morning show waters still high along both courses with the inundated area large but apparently narrowing.

Railway service also shows a marked improvement and some of the lines are attempting to resume regular train schedules. An unusually large number of farmers are here today after corn and cotton seed with which to replant their lands.

No additional loss of life has been reported during the night and residents in bottom lands are declared well out of danger places.

ONLY ONE BRIDGE OVER CANADIAN YET IMPASSABLE

With fair weather forecasted for tomorrow and no rains likely within the next several days, and waters falling in all the rivers, trouble to the railroads is about over now. The Frisco bridge across the South Canadian river at Thomas is still out but workmen are repairing it and it is expected to be in commission within a short time. Trains are being detoured around Thomas.

The Rock Island bridge at Union City and Bridgeport and the Frisco bridge over the South Canadian river at Tuttle have been repaired and train service resumed.

LIASSAN PEAK IN ERUPTION MASKED IN DENSE CLOUDS

COTTONWOOD, Cal., April 29.—Blown forty miles, ashes from Lassen peak continued to fall here today. For ten days heavy clouds have obscured the volcano, masking it. It is believed, a big eruption. Walks and roofs were covered as if by snow.

THE WEATHER

Washington Forecast.
Oklahoma—Tonight and Friday generally fair, cooler tonight in the east portion.
Louisiana—Tonight and Friday partly cloudy.
Arkansas—Tonight and Friday unsettled, cooler tonight.
New Mexico—Tonight and Friday unsettled.
West Texas—Tonight and Friday unsettled, showers tonight or Friday.

TO BUILD BY VATICAN

Methodist Plan to Erect College to
Accommodate a Thousand Students
on Monte Mario.

FLORENCE, Italy, April 29.—The annual conference of the Italian Methodist Episcopal church closed today. The most important topic discussed was the assistance given Italian refugees from home by the far-reaching war and extended survivors of the Avezzano earthquake. The Rev. J. M. Tipler was appointed delegate from Italy to the general conference at Saratoga Springs in May, 1916.

1914 FIRE INSURANCE

Figures Compiled by Commissioner
Show Quarter Billion Dollars New
Business Last Year.

According to figures compiled by the Insurance Commissioner there was \$222,900,000 new business in fire insurance written in Oklahoma during the year 1914. The net premiums on this amounted to \$3,451,535.77. Losses incurred amounted to \$2,251,823.45 and of this amount \$1,510,340.74 was paid when the reports were submitted. This includes both foreign and domestic companies. Premiums collected on foreign and home insurance written by both domestic and foreign companies amounted to \$13,447,774. Losses paid amounted to \$1,717,748.46.

WORK DONE ON FAITH

Presbyterians Encountered Trying
Time, But Raised \$30,000 More
Than Called for in Their Budget.

LOUISVILLE, Ky., April 29.—Work of the foreign mission board of the Presbyterian church for the last year was described as "work of faith done on faith" by Rev. A. Woodruff Halsey, secretary of that body in an address last night before the women's board of foreign missions of the Presbyterian church in the first annual session here. The present meeting is the first ever held in the south.

At the beginning of the fiscal year, Dr. Halsey said, the board faced a deficit of \$22,000 and despite this and the fact that their advisors told them it would be impossible to raise the usual sum because of financial depression, the largest budget in the history of the board has been adopted.

The world war, he said, had added to their difficulties, but in the most trying period in fifty years they raised \$2,287,000; \$30,000 more than our budget called for.

GAME GRABBED IN LEAD INNING

Heavy Hitting and Sensational Field-
ing Feature Senator-Miner Game
Won By Locals 8 to 4.

Taking a four-run lead in the first frame when King, first up, secured a hit, was advanced by Mang who drove a pass and scored a moment later when Hall sent one outside the park for a home run and Kilduff in the same inning came to the bat and with no one on bases and two men down sent one to the other side of the common over the fence, the Senators took this morning's game from McAlester by a score of eight to four.

Heavy hitting, much of it for extra bases was the feature as well as some sensational plays made by Manager Mang of the Senators, Edens of the McAlester team and the winning of (Continued on Last Page.)

DRIVING FAKERS OUT

Power of Advertisement Will Be
Greater, Woodhead Says, When Peo-
ple Are No Longer Cheated.

CHICAGO, April 29.—Reject all forms of objectionable advertising—that from quacks and fakers and there will be more advertisers and quicker results, William Woodhead of San Francisco, president of the Association of Commerce in an address yesterday. Mr. Woodhead is in Chicago to arrange for the world convention of advertising clubs to be held here in June. It is expected that more than 10,000 advertising experts from all nations will be in attendance.

"Every time a man or woman is cheated by a bogus advertisement," asserted Mr. Woodhead, "the pulling power of all advertising is so much weakened because the fakers and the publisher have taught just so many more people to distrust all advertisements. There will be more advertisers and they will get more and quicker results when the quacks and fakers are driven out of business."

Mr. Woodhead said that forty-six years ago there were about five thousand and publications of all kinds in the United States and that today there were more than 25,000. He estimated that more than \$600,000,000 was spent in advertising in this country last year, which he said, was proof not only of its marvellous growth, but of the wonderful results achieved.

SUN SMILES, CROWD CHEERS AND BIG AUTO RACE IS ON

Crowd Began to Mool for Vantage
Points Long Before Noon. Record
Array of Parked Automobiles.
Racers Given Ovation. Governor
and Mayor on Hand.

On the initial lap of the 200-mile go A. F. Scott, in his Tulsa car

turned completely over at the Willard Hotel. He was not seriously hurt and may be able to get back into the race. In the fourth Barney Oldfield had to drop out on account of engine trouble, thus making his nonstop drive and losing four laps in the race thereby.

course as early as time in the morning

Never before in the history of Oklahoma has such an array of automobiles been seen. Photographers, sandwich men and race readers did a thriving business for five hours preceding the race.

Races for the governor and mayor were given frequent ovations by the waiting crowd.

With the fulfillment this morning the prediction of the weather man yesterday in regard to the conditions which would prevail in the races drivers and officials who participated in the program of the Southwest Sweepstakes today would smile broadly as to the speed that they believed would be made on the course.

Barney Oldfield, and others of the largest crowd, especially from the north, were seen before the start of the race. They declared they would be in their element on the Willard Hotel. Oldfield, a local driver, was contrary to the forecast of other drivers. The latter said that they would not be able to make the race.

All of the cars in the race started before the first lap to get away and made a circuit of the 2.40 mile course. The race started at 11 o'clock. If 70 and 80 mile clips may be mentioned in such mild phrasing, to a lot of the spectators, the limit of the endurance and with qualities of the course at its turn. Perhaps the most notable feature of the race was the individual display of head work of which much was expected from veteran racers.

The system of starting made it impossible the limited length of the course considered to score the race by laps. The minute calculations of the timers well above in the cell. If not, although at its finish, alone suffice to determine results. The electrical time was not used, but a number of stop watches carefully compared were employed so that results were satisfactory accurate.

Games of workmen were busy upon the track on until the minute of the start of the race. The entries were at the south end of the course and moved back fifty feet to accommodate both public and racers.

Two hours before the race was called every available space was occupied by cars some having arrived at the track as early as 10 o'clock.

In the grandstand which was packed home only once. The first race was the "one hour" and the second was the "one hour" and the third was the "one hour" and the fourth was the "one hour" and the fifth was the "one hour" and the sixth was the "one hour" and the seventh was the "one hour" and the eighth was the "one hour" and the ninth was the "one hour" and the tenth was the "one hour" and the eleventh was the "one hour" and the twelfth was the "one
